7	3:55 Redcar John Smith's Ebf Stallions Guisborough Stakes (Listed Race)	Sondad (GB)	-	Witness Stand Finish: 2nd	Witness Stand Finish: 2nd

How this card should be interpreted

This is prospective validation, not a retrospective re-fit. A single ITV7 card is diagnostic only. The repository therefore freezes each model before racing, evaluates every race afterwards, and requires at least 50 completed cards before planned model retuning. Win/top-three/finish-position metrics judge the selections; multiclass log loss and Brier score judge the full probability field. Non-finishes remain scored failures rather than disappearing from the sample. Accumulator, Super Heinz and other betting-system returns are recorded separately because bet structure can turn a useful race-level forecast into a zero-return ticket.

Lower log loss and Brier scores are better. They are only shown when a model supplied a full race-normalised probability distribution. No model should be promoted or rewritten because of one day's outcome.
